Compliance Manager

We have a new vacancy within our projects team for a Compliance Manager. You will be responsible for ensuring compliance with the Company's Business Management System and its associated ISO accredited standards, whilst also assisting with some other projects by providing project management input.

You will have skills in IT project management where ISO27001 has been an important consideration, or you will have experience of working with security and service management systems.

You will primarily be based out of our Warrington location however the role will have some flexibility to work remotely, and may require attending occasional meetings throughout the UK.

What you'll do

You'll take responsibility for developing and maintaining and evolving the Company management systems, ensuring that we conform to, and maintain the ISO standards to which we work. This will involve working with all areas of the business and contributing to Management team through review meetings.

You will also spend a portion of your time managing customer and internal projects, ensuring they are delivered on time and to budget.

What to bring

You will have experience as a compliance or project manager working with ISO 27001 security standards, and preferably ISO20000 or ITIL environment.

You'll possess excellent communication skills, project planning and reporting skills, the ability to manage people and expectations, good business awareness, and a methodical approach

What we offer in return

With the support of a small but strong team of technical, sales and operations people you'll be a key part of the continued growth and success of the business. As well as a competitive package, this role gives you the opportunity to build your knowledge and skills, working and developing the business to help achieve its objectives.

About Datel Advansys

Datel Advansys is a specialist in IT infrastructure solutions, from initial design, architecting, configuring, implementation, through to full monitoring and management of Private and Hybrid Cloud Solutions for mid-market businesses.

Our primary route to market is working with a number of business partners whose customers want to move to a cloud based solution, outsourcing key components of their IT solutions whilst maintaining high levels or security and availability often across multiple geographies around the world.

We are committed to quality processes and industry best practice for IT service management, security and support in line with ITIL principles and ISO standards and all staff have been through the Baseline Personnel Security Standard.

We have a loyal and growing customer base that stay with us for our exceptional service and support, delivered by our highly skilled team. We invest in our people through development, training and support.

Datel Advansys employees can expect competitive salaries, a minimum of 25 days holiday which increases with service, pension scheme and other benefits.
